

08 Staff, volunteers and students procedures

08.1 Staff deployment

Members of staff are deployed to meet the care and learning needs of children and to ensure their safety and well-being at all times.

- At all times, the requirements of the EYFS Safeguarding and Welfare requirements will be met in relation to staff ratio's.
- Two members of staff are on the premises before children are admitted in the morning and the end of the day; one of which should be part of the senior team.
- Only those staff aged 17 or over are included in ratios. Staff working as apprentices (aged 16 or over) may be included in the ratios if the setting manager is satisfied that they are competent and responsible.
- ALL people who are employed by the company in a child facing role can care for groups of children in situations where other members of staff are within sight and/ or hearing distance. This includes apprentices and assistants over the age of 17. These duties will only be able to commence after an induction period, appropriate training and when the room senior or management decides the person is competent to do so.
- ALL people who are employed by the company in a child facing role can be counted within staff ratios. At all times the qualification requirements as set out in statutory EYFS safeguarding and welfare requirements must be met.
- ANY people who are NOT employed by the company must NOT be left alone with children (even if within sight/ hearing of others). This applies to students and volunteers
- ANY people who are NOT employed by the company will not NORMALLY be counted in ratios. In a situation involving a LONG TERM student placement then this decision will be at the discretion of the management
- At least one Paediatric First Aider must be on site at all times when children are present
- The setting manager or senior team deploy staff to give adequate supervision of indoor and outdoor areas, ensuring that children are usually within sight and hearing of staff and always within sight or hearing of staff at all times.
- All staff are deployed according to the needs of the setting and the children attending.
- In open plan provision, staff are positioned in areas of the room and outdoors to supervise children and to support their learning.

- Staff are responsible for ensuring that equipment in their area is used appropriately and that the area is tidy at the end of the session.
- Staff plan their focus on activities
- Staff inform colleagues if they have to leave the room for any reason.
- There are generally two members of staff outside in the garden when it is being used.
- Staff focus their attention on the children at all times whilst having a wider awareness of what is happening around them.
- Staff allow time for colleagues to engage in 'sustained shared interaction' with children and do not interrupt activities led by colleagues.
- Sufficient staff are available at story times to engage children.
- Key persons spend time with key groups daily; these times are not for focussed activities but for promoting shared times and friendship.

Staff children

- Where members of staff have their own children with them at the setting, the age of the child must fall within the stipulated ages of the setting's Ofsted registration.
- Where members of staff are likely to be working directly with their own children, this is subject to discussion before commencement with the setting manager.
- Where it is agreed that a member of staff's child attends the setting, it is subject to the following:
 - the child is treated by the parent and all staff as any other child would be
 - the staff member will not normally be deployed into the same room as their child.
 - the child will not be in the parent's key group of children
 - the key person and parent will work towards helping the child to make a comfortable separation from the parent to allow the parent to fully undertake their role as a staff member of the setting
 - the key person will take responsibility for the child's needs throughout the day, unless the child is sick or severely distressed
 - time and space are made for the parent to breastfeed during the day, if that is their chosen method of feeding
 - the situation is reviewed as required, to ensure that the needs of the child are being met, and that the parent is able to fulfil his/her role as a member of staff

If it is the setting manager's child, then their line manager ensures the criteria above is met
